

INFORMATION SHARING: Small, Rural, Tribal, and Campus Law Enforcement Communities

GET CONNECTED

How to Integrate into the Homeland Security Information Sharing Environment

DHS and its mission partners support information sharing tools and products that small, rural, tribal, and campus law enforcement can easily access to support their local mission. Individuals and their agencies can get connected with each of these resources.

4 Information Sharing Steps

1. Connect with Your Fusion Center
2. Attend I&A Briefings
3. Join HSIN
4. Attend OSLLC Webinars

START

1

CONNECT WITH YOUR FUSION CENTER

Fusion Centers are state and local-owned and operated centers that serve as focal points in states and major urban areas for the receipt, analysis, gathering, and sharing of threat-related information between state, local, tribal, territorial, and campus (SLTTC), federal, and private sector partners.

The National Network of Fusion Centers brings critical context and value to Homeland Security and law enforcement that no other federal or local organization can replicate. Fusion Centers accomplish this through sharing information, providing partners with a unique perspective on threats, and being the primary contact between frontline personnel, state and local leadership and the rest of the Homeland Security Enterprise. For more information on Fusion Centers and to identify the fusion center nearest you visit DHS's website at <https://www.dhs.gov/fusion-centers>. For an online map of fusion center locations visit the National Fusion Center Association's online tool at <https://nfcausa.org/fusion-centers/>.

2

ATTEND I&A BRIEFINGS

The DHS Office of Intelligence & Analysis (I&A) is the only Intelligence Community element statutorily charged with delivering intelligence to SLTTC and private sector partners and developing intelligence from those partners.

Monthly Migration Cell Briefs provide the law enforcement community with a comprehensive update on migration with a focus on the Southwest Border. For more information, contact slttpartnersmigrationcell@hq.dhs.gov.

DHS Intelligence Enterprise conducts a bi-weekly UNCLASSIFIED//FOR OFFICIAL USE ONLY/TLP GREEN cyber threat intelligence teleconference for public and private sector security professionals. For more information, contact slttpartnerengagement@hq.dhs.gov.

3

JOIN HSIN

The Homeland Security Information Network (HSIN) is DHS' official system for trusted sharing of information between partners. HSIN provides law enforcement agencies with a central, online location for information sharing and collaboration. To request an account, visit <https://www.dhs.gov/how-join-hsin>.

HSIN Intelligence (HSIN-Intel): Sworn law enforcement partners, fusion centers, and other domestic intelligence partners use HSIN-Intel to access up-to-date intelligence products from the National Network of Fusion Centers and federal partners. Through HSIN-Intel, sworn law enforcement officers can:

- Access the national network of fusion centers analysts and intelligence professionals;
- Access sensitive "For Official Use Only" (FOUO) and Law Enforcement Sensitive (LES) shared by Fusion Centers, DHS, and other Federal Partners; and
- Gain 24/7 situational awareness tools to ensure awareness and coordination during regional and national level incidents.

To learn more, including how to join, visit <https://www.dhs.gov/intelligence>.

HSIN Critical Infrastructure (HSIN-CI): For both sworn and non-sworn partners, HSIN CI provides a single source where critical and timely infrastructure protection information from DHS is shared. Through HSIN-CI members can:

- Make use of real-time collaboration tools including a virtual meeting space, document sharing, alerts, and instant messaging;
- Access situational updates, suspicious activity reporting, and sector incident reporting; and
- Learn about CI trainings and webinars, access real-time collaboration tools.

To learn more, including how to join, visit <https://www.dhs.gov/hsin-critical-infrastructure>.

4

ATTEND OSLE WEBINARS

To help share timely information and resources on relevant homeland security topics with SLTTC law enforcement partners, the DHS Office for State and Local Law Enforcement (OSLE) has established a monthly webinar series. These webinars provide a forum for discussion and include briefings from DHS and other partners, to include briefings by SLTTC law enforcement agencies to ensure that the non-federal perspective is also being incorporated into these discussions. The webinars are also paired with useful and timely resources, which could include fact sheets, intel products, educational videos, best practices, bulletins, alerts, etc. This includes an aggregate of existing resources, as well as newly created materials being rolled out at or around the time of the webinar. All OSLE webinars and resources are archived on HSIN Intel for SLTTC law enforcement partners to reference at any time. To receive invitations for future webinars, please sign up at <https://forms.office.com/g/PPCA2Jeik6>.

NEED HELP? PARTICIPATE IN OSLE TECHNICAL ASSISTANCE

OSLE offers 1-on-1 technical assistance (TA) to SLTTC law enforcement officers and agencies looking to connect with the Homeland Security information sharing environment. Meet with an OSLE TA provider to learn more about the tools included above, get individualized assistance in connecting with these programs, and register for tools to help support your mission. To set up a TA call register at <https://forms.office.com/g/atqKPD295V> or scan the QR Code. To learn more about OSLE or access our Resource Guide, please visit www.dhs.gov/office-state-and-local-law-enforcement.
